

Where ideas work

Ministry of Transportation and Infrastructure

Flexible work options are available; this position may be able to work up to 2 days at home per week subject to an approved telework agreement.

This position can be based in any of the following Ministry of Transportation and Infrastructure offices: Nelson, Prince George, Kamloops, Victoria, Nanaimo, New Westminster, Coquitlam, Terrace and Kelowna.

Employees of the BC Public Service must be located in BC at the time of employment.

Senior Geomatics Technician

\$73,855.42 - \$84,134.34 annually

The Ministry of Transportation and Infrastructure (MoTI) plans transportation networks, provides transportation services and infrastructure, develops and implements transportation policies, and administers many related acts, regulations and federal-provincial funding programs. The Ministry strives to build and maintain a safe and reliable transportation system and provide affordable, efficient and accessible transportation options for all British Columbians. This work includes investing in road infrastructure, public transit, cycling network improvements and other green modes of transportation, reducing transportation-related greenhouse gas emissions, and strengthening the economy through the movement of people and goods. The Ministry invests in highway rehabilitation and side road improvements, which include road resurfacing, bridge rehabilitation and replacement, seismic retrofits, intersection improvements and upgrades to smaller side roads to help connect communities.

The Senior Geomatics Technician provides direct technical specialties in the delivery of highway engineering services and performs technical and administrative tasks that meet project requirements and Ministry specifications.

The BC Public Service is committed to creating a [diverse workplace](#) to represent the population we serve and to better meet the needs of our citizens. Consider joining our team and being part of an innovative, inclusive and rewarding workplace.

Qualifications for this role include:

- Degree or diploma in Survey based Geomatics engineering, and a minimum of three (3) years' experience in field surveying and drawing preparation.
- Experience in the use of Civil 3D with respect to applications for highway design ground modelling, drafting and drawing compilation.
- Valid B.C. driver's licence.
